LABEL BRUSH

with 2 threads

91300	former "Jagenberg"
91301	Eti-Tec

LABEL FORM ROLL

Depending on the machine type 2-piece roller brushes or individual strip brushes are used here. Before the start of production either old patterns or exact dimensions are needed.

CUSTOM-DESIGNS

We already manufacture a variety of brush types for different types of machines.

For initial orders it is always necessary to provide old patterns, drawings or exact measurements/data.
